Spotlight: Draft CAQH CORE Attachments Operating Rule Scope & Requirements

	Draft CAQH CORE Attachments (275/278) PA Operating Rules	Draft CAQH CORE Attachments (275/837) Claims Operating Rules
In Scope	**X12 Submission Methods (PA Use Case)** - X12 v6020X316 275 Additional Information to support a Health Care Services Review - X12 v5010X217 278 Health Care Services Review – Request for Review and Response	**X12 Submission Methods (Claims Use Case)** - X12 v6020X314 275 Additional Information to support a Health Care Claim - X12 v5010X223 837 Institutional, X12 v5010X222 837 Professional, and X12 v5010X224 837 Dental Health Care Claims - X12 v6020X313 277 Health Care Claim Request for Additional Information
	X12 Submission Methods (PA & Claims Use Cases) - X12 v6020X257 824 Application Advice Technical Report Type 3 - X12 v6020X290 999 Functional Acknowledgement **Electronic Non-X12 Additional Documentation Payload Formats (PA & Claims Use Cases)** - *Optional*: Other payload types (e.g., HL7 C-CDA, FHIR Resources, .pdf, etc.) exchanged using the most recent CAQH CORE Connectivity Rule*	
Infrastructure Requirements	**PA & Claims Use Cases** - Maximum response times (**Batch**: Two Business Days | **Real Time**: 20 seconds) - Minimums for document file size and amount of data that must be supported (**64MB**) - Standard methods and response time for receiving system to return errors to the provider (**X12 v6020 824**) - Use of the most recent version of the **CAQH CORE Connectivity Rule** - Specifies system availability downtimes and requirements for health plans to publish and report downtimes** - Use of the CAQH CORE Master Companion Guide Template	
	PA Use Case - N/A – there are no infrastructure requirements specific to PA Attachments	**Claims Use Case** - Establishes electronic policy access requirements - Specifies support for the exchange of multiple electronic attachments to support a single claim submission
Data Content Requirements	- Reassociation requirements for X12 275 and non-X12 275 payload formats, including use of **PWK Code EL**. - Use of **consistent reference data** to link attachments with their associated prior authorization request or claim.	
	PA Use Case - N/A – there are no data content requirements specific to PA Attachments	**Claims Use Case** - Use of appropriate LOINCs to request the most specific additional information

*The draft rule requirements address the optional use of electronic non-X12 additional documentation submission payload formats; the draft rules *do not require* any entity to exchange documentation using an electronic non-X12 additional documentation submission format method (e.g., HL7 C-CDA, FHIR Resources, etc.).

**The CAQH CORE Review Work Group is voting on an increase to system availability across all CAQH CORE Infrastructure Rules in the RWG Ballot. If the work group agrees to increase the system availability across all infrastructure rules, these draft attachments infrastructure rule requirements will be adjusted accordingly prior to the Final CORE Vote.
